

Rules of the SDGs Card Game

In this game, you become **the mayor of your city** and work towards achieving the SDGs!

① From the 20 SDGs cards, please **choose 10 cards** that show what you want to do for your city.

② As a mayor, you have to do lots of different things for the benefit of everyone.

Please make sure to choose **at least one card from each color category**.

You can find the color in the top right corner of the cards.

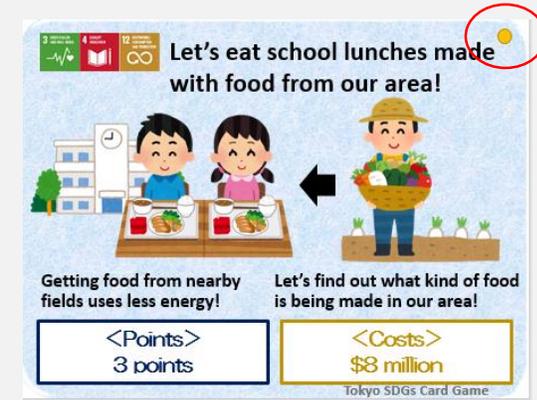

【Color Category】

● Let's Stop Climate Change!

● Let's Live Sustainably!

● Let's Build a Sustainable City!

● Let's Work for Everyone's Well-being!

③ After choosing 10 cards, please add up all the points and money.

The game is completed when **the total points reach 35 or more**.

Implementing the SDGs measures costs money.

The mayor has 100 million dollars.

The total money for 10 SDGs measures must **not go over 100 million dollars**.

④ If your points are less than 35 or if the money goes over 100 million dollars, please replace the cards.

Don't just worry about points and money, remember to **stay focused on your policies as a mayor!**
